Intro

I am a web developer. My focus is on the front-end, but I have some experience in the back-end as well in Node.js and Python. I have taught myself over the last couple of years with the aid of several online courses and occasional help of an experienced mentor.

Tech Skills

- HTML5
- CSS3
- JavaScript
- jQuery
- Twitter Bootstrap
- slick
- Git
- Node.js
- Express.js
- Bash/Linux
- Python
- Firebase DB

Work Experience

Professional Experience - Web Developer, *February 2015 - Present*

DealerFire

Web Developer, *April 27th, 2015 - Present*

- Primary task involved using pre-made modules to create websites for car dealership/company clients.
- Languages/libraries utilized included HTML5, CSS3, JavaScript, jQuery, Bootstrap, etc.
- Other duties included communication with customers via the Salesforce system, e-mail, or phone on a consistent basis to keep up to date on changes made to the respective sites.

High Altitude Science

Web Developer, *February 2015 - March 2015*

- Designed and developed the front-end for the Weather Balloon Flight Simulator web app
- Front-end developed with HTML, CSS, JavaScript, jQuery, Bootstrap, slick, autoNumeric
- Built as a single-page app. This involved using slick to set up a slider that separated the three portions

of the simulator - one for the input parameters (launch date, burst altitude, etc.), one for the starting coordinates, and one for the results.

Personal Projects - Web Developer, *March 2013 - February 2015*

Snow App Project - <http://snow-app-project.herokuapp.com/>

- Unfinished prototype web app for a project which would allow people to hire others to shovel their driveway
- Developed front-end with HTML, CSS, JavaScript, jQuery, Bootstrap
- Wrote back-end with Node.js and Express.js, including registration and login functionality
- Integrated with Firebase DB

Game Project - <http://kidicarus1337.github.io/Game-Project/public>

- Unfinished text-based game developed in my free time for experience
- Developed front-end with HTML, CSS, JavaScript, jQuery

J.J. Keller - Data Entry, *Fall 2012 - February 2013*

- Helped migrate customer information to a new server setup

Shopko - Customer Service, *Fall 2008 - Fall 2012*

- Primarily worked as a cashier and store front stocker
- Occasionally did some miscellaneous work

Education

Codecademy, 2013

- HTML & CSS
- JavaScript
- jQuery
- Web Projects

Udacity, 2012 - 2013

- CS101 - Intro to Computer Science
- CS253 - Web Development

High School Graduate, 2006 - 2010
