Intro

I am a web developer. My focus is on the front-end, but I have some experience in the back-end as well in Node.js and Python. I have taught myself over the last couple of years with the aid of several online courses and occasional help of an experienced mentor.

Tech Skills

- HTML5
- CSS3
- JavaScript
- jQuery
- Twitter Bootstrap
- slick
- Git
- Node.js
- Express.js
- Bash/Linux
- Python
- Firebase DB

Work Experience

Professional Experience - Web Developer, *February 2015 - Present*

High Altitude Science

Web Developer, *(short-term contract) February 2015 - March 2015*

- Designed and developed the front-end for the Weather Balloon Flight Simulator web app
- Front-end developed with HTML5, CSS3, JavaScript, jQuery, Bootstrap, slick, autoNumeric
- Built as a single-page app. This involved using slick to set up a slider that separated the three portions of the simulator - one for the input parameters (launch date, burst altitude, etc.), one for the starting coordinates, and one for the results.

Personal Projects

Galaxy Tanks - (In development)

- Live demo: http://kidicarus1337.github.io/galaxy-tanks/
- Repo: https://github.com/KidIcarus1337/galaxy-tanks
- A single-page app (SPA) built on the HTML5 canvas that is a space-themed version of the classic tanks game
- Front-end developed with HTML5, CSS3, JavaScript, jQuery, Fabric.js
- Utilizes a custom-built physics engine that simulates gravity and collision detection among other things

Snow App Project

- Live demo: http://snow-app-project.herokuapp.com/
- Repo: https://github.com/KidIcarus1337/SnowProject
- Unfinished prototype web app for a project which would've allowed people to hire others to shovel their driveway
- Developed front-end with HTML, CSS, JavaScript, jQuery, Bootstrap
- Wrote back-end with Node.js and Express.js, including registration and login functionality
- Integrated with Firebase DB

Text-game Project

- Live demo: http://kidicarus1337.github.io/Game-Project/public
- Repo: https://github.com/KidIcarus1337/Game-Project
- Unfinished text-based game developed in my free time for experience
- Developed front-end with HTML, CSS, JavaScript, jQuery

--

J.J. Keller - Data Entry, *Fall 2012 - February 2013*

- Helped migrate customer information to a new server setup

Shopko - Customer Service, *Fall 2008 - Fall 2012*

- Primarily worked as a cashier and store front stocker
- Occasionally did some miscellaneous work

Education

Codeacademy, *2013*

- HTML & CSS
- JavaScript
- jQuery
- Web Projects

Udacity, *2012 - 2013*

- CS101 - Intro to Computer Science
- CS253 - Web Development

High School Graduate, *2006 - 2010*
